

Safety Meeting Minutes
September 8, 2021

Sheri Moyer and Earl Bright, motioned to approve last month's meetings.

Concerns were expressed regarding the flow of traffic before and after school. The buses are getting stuck in traffic as Parents pick up/drop off their kids. They wind up running 15 – 20 minutes late on a daily basis. We do have our grounds crew assisting with the traffic flow, but the influx is proving to be overwhelming. Bill mentioned that a group discussion occurred and there will be changes to the traffic patterns. Chief Visconti of the Lower Swatara Police Department will be on site for dismissal today to see firsthand what's happening and make suggestions, if necessary.

Dee discussed the concerns with the air handler room at Reid being used as storage, not allowing our technicians access to changing filters in the units and/or gaining access should there be an emergency. Mr. Bright commented that there is no room at the Middle School to store items either. The stage is overcrowded with furniture, as is the mechanical room. The district is planning on having concerts and such and a lot of this furniture needs to be discarded, not just stored. Bill stated the stages will remain the way they are until we figure something out.

Bus evacuation drills for full size buses occurred this morning, and tomorrow they will be done for the vans.

Bill noted that Governor Tom Wolfe mandated masks to be worn in all buildings until further notice.

Dr. Borrelli expressed concerns about Kunkel Elementary being the storage place for the district's dead files; all curricular material is housed at the building and it's becoming very unmanageable. Bill will look in to this.

Meeting ended at 10:15 AM

Next meeting is scheduled for Wednesday, October 13, 2021 at 9:30 AM via Zoom.
